

FEATURED ALUM-A-LIFT
 ROLL HANDLING LIFT WITH DUAL ADJUSTABLE PRONGS

PROJECT
31061

MODEL A800CS-72

FEATURING Adjustable Steel Dual Prong End Effector. Motor Speed Control. Low Profile Legs

HANDLING 600 lb [272 kg] Rolls

DETAILS This roll handling lift includes a pair of adjustable prongs for supporting rolls from below. Dual prongs leave the core free and clear for loading on a cantilevered unwind shaft. They can also pick rolls directly from the floor or the surface of a pallet. Side-to-side prong adjustment is toolless and allows a range of rolls to be handled.
