

FEATURED ALUM-A-LIFT ROLL HANDLING CLAMP LIFT WITH ANTI-TELESCOPING DEVICE

PROJECT 31550

MODEL A800CS-72

FEATURING Powered Front-to-Back and Side-to-Side Rotation, Powered Clamp, Quick-Exchange Clamp Pads, Anti-telescoping Device, Quick-Exchange Battery System

HANDLING 441 lb [200 kg] Rolls

DETAILS This lift features a powered clamp with side-to-side and front-to-back rotation to allow for easy loading and unloading of rolls onto slitters, unwinders, and a variety of packaging machines. It also features an anti-telescoping device that engages the roll's core to prevent slipping between layers of material. Quick exchange clamp pads enable the device to be used with multiple web widths.
