

FEATURED ALUM-A-LIFT  
 ERGONOMIC ROLL CLAMP LIFT WITH INTERCHANGEABLE PADS

PROJECT  
**30309**

**MODEL** A800CS-72

**FEATURING** Rotating Powered Clamp, Interchangeable Pads, Overload & Obstacle Safety Module, Positional Function-limiting Features

**HANDLING** 300 lb [136 kg] Rolls

**DETAILS** This roll handling lift features a powered roll clamp and a rotation module that can turn rolls on their side for through-shaft installation. The lift includes adjustable clamp force and provides reliable, repeatable gripping. It also includes interchangeable clamp pads which allow the force to be evenly distributed along the surface of a variety of pressure-sensitive roll sizes.
