

FEATURED ALUM-A-LIFT SELF-PROPELLED DRUM LIFTER AND ROTATOR

PROJECT 33216

MODEL A800CSPD-72

FEATURING Powered Asymmetrical Clamp, Powered Rotation, Powered Drive Movement

HANDLING 500 lb [226 kg] Steel Drums

DETAILS This Alum-a-Lift is designed to handle and rotate steel drums. With its asymmetrical clamp, this lift can pick up an upright drum, rotate it, and place it horizontally on rollers or shelving. This lift features a power drive unit to allow for easy and precise movement, and a safe-to-lift indicator light gives the operator confidence that the drum is being held at the preset safe clamp force.
