

FEATURED ALUM-A-LIFT
 IP65 STAINLESS STEEL COOKIE MIX TOTE DUMPER

PROJECT
35376

MODEL A800SSWD-96

FEATURING Stainless Steel Construction, Wash-Down (IP65), Plunger Floor Brake, Dumping Platform, Delrin Grips

HANDLING 80 lb [36 kg] Totes

DETAILS Our cookie mix tote dumper has been specifically designed for use in food processing settings, ensuring it can securely hold and discharge dry cookie ingredients into an industrial cookie dough mixer, where they are combined with shortening, vanilla, and other wet ingredients.

All equipment within the facility must be constructed from non-toxic materials that facilitate easy cleaning and maintenance to avoid contamination. This Alum-a-Lift features an IP65 rating and is constructed from stainless steel, designed to withstand dust and water pressure from every direction. Its outstanding corrosion resistance makes it ideal for settings with stringent food safety regulations, ensuring the integrity of products during the dumping process.
